

Integration Support Engineer

Youssef Shaheen

Task1

- You will find the first three APIs in html file attached to the mail by the file named " integration task1".
- Because I do not have the ability of editing on Paymob's website, I edited the html and the css file and you will find them attached to the mail by the file named "Hidden checkbox".
- You will find a screen shot from the object Token after I did a transaction attached In the file named "token object response".

Task 2

- You will find the three APIs (Authentication Request, Order Registration API and Payment Key Request) Then the Pay token Api attached in the mail by the file named “integration task2”
